

- Monitor and analyse emerging policy, regulatory and market developments affecting transport electrification, EV charging and energy integration.
- Develop policy submissions, briefing papers, reports and technical materials
- Represent EVC at meetings, consultations and industry events

Stakeholder Engagement & Organisational Support

- Develop trusted relationships with government, industry, consultants and EVC members.
- Coordinate stakeholder engagement and member working groups
- Contribute to EVC communications, publications and thought leadership activities.
- Work collaboratively across the EVC team to support organisational priorities

Key Skills & Experience

- Strong project management experience delivering complex, multi-stakeholder programs ideally in energy, infrastructure, transport or decarbonisation sectors
- Knowledge of EV charging, energy systems, infrastructure or transport electrification.
- Experience working within technical, analytical, infrastructure or engineering environments.
- Strong technical and policy writing capability
- Excellent stakeholder engagement and communication skills
- Ability to manage consultants and multi-stream work programs
- Experience working with government programs or industry partnerships highly regarded

We recognise that great candidates don't always meet every criterion. If you have experience delivering complex programs in infrastructure, energy, transport or related sectors and are excited by this opportunity, we'd encourage you to apply.

Why Join EVC

As Australia's peak body for electric vehicles, the Electric Vehicle Council works with governments, industry and the broader energy sector to accelerate transport electrification.

This role offers the opportunity to:

- Lead delivery of a major EV charging and energy integration initiative.
- Work alongside leading experts across government, industry and the energy sector.
- Influence future policy, infrastructure planning and industry collaboration.

- Enjoy flexible remote working and a supportive, purpose-driven team.
 - Access salary packaging and novated leasing benefits.
-

Employment

This is a full-time fixed-term appointment for **10 months**, aligned to the delivery of a major industry project.

Remuneration: \$130,000–\$150,000 (plus superannuation), depending on experience.

We offer flexible remote working, salary packaging, novated leasing, flexible working hours, and the opportunity to contribute to meaningful work at the intersection of transport, energy and public policy.

If you're excited by the opportunity to deliver complex projects that will help shape Australia's transport and energy future, we'd love to hear from you.

Applications should be emailed to office@evc.org.au. Deadline for applications is Friday, 7 August.
